Altho the youngest language club in Central, the French Club has made a place for itself. The organization was effected last year but was hampered by the fact that very few students were enrolled in French classes. This year, however, more students are taking French and still more are becoming interested.

Interesting and often amusing programs have been given throughout the year. The assembly program which was given by the French Club was unusual and unique.

With these activities and the plans for the future carried out, the French Club will surely find a place in the limelight of Central High.
